Protect your workforce

Ensure safe and healthy working environment with OHSAS 18001.

保护您的员工

OHSAS 18001 确保安全、健康的工作环境

TÜV SÜD Group

TÜV®

Protect your people

Shocking headlines about serious factory accidents, mine disasters and threatening dangers at workplaces have continuously reached the public. Accidents, which could have been avoided, not only can result in enormous additional costs, but can also damage a company's reputation. As employees are one of the most important assets in a value chain, the old saying "prevention is better than cure" rings especially true in the context of workplace safety and health.

As a result, companies should implement a system that enables them to comprehensively plan and organise occupational and health safety measures cost-effectively. An occupational safety management system such as the Occupational Health and Safety Assessment Series – OHSAS 18001 – fulfils these criteria. The standard covers:

- Hazard identification, risk assessment and risk control measures such as employee training
- Contingency plans development

保护您的员工

严重的工厂事故、矿山灾难和工作场所的危险的新闻头版报导一再地让公众震惊。这些事故实际上是完全可以避免的。这些事故不仅造成了巨大的损失，而且也使公司的名誉受损。员工是价值链中最重要的因素之一，俗语说“治病不如防病”，对于工作场所的安全和职业健康问题尤其如此。

因此，公司应实施使其能够经济地、全面地计划和组织职业和健康安全措施的体系。职业健康和安全评定系列，即 OHSAS 18001标准的职业健康安全管理体系满足这些要求。该标准包括：

- 危险源识别和风险控制措施，例如员工培训
- 应急预案的制定

Services at a glance

As OHSAS 18001 offers a organised process for work protection and safety management systems, With our extensive experience in management systems certification, TÜV SÜD is a first class partner to conduct the entire certification from start to finish. We provide:
